Description

EZ Foaming Instant Hand Sanitizer, 1000 ml. This foaming sanitizer is an effective alternate to traditional "gel style" hand sanitizers, with a pleasant linen fragrance. Traditional gel sanitizers contain alcohol as an active ingredient, which can dry out the skin and is considered flammable. This foaming instant hand sanitizer contains Benzethonium Chloride at .02% as the active ingredient. Foaming hand sanitizer is efficacious, non- flammable, and economical to use. No water is required. For use with Kutol EZ Foam and Hand Hygiene Dispensers 6/1000ml
