Just as dirty dishes can quickly pile up in the dish room, trash can quickly pile itself up throughout the day, from prep work to dinner services. In order to corral the mess that accompanies life in a professional kitchen, Thunder Group recommends using its 44 Gal Plastic Trash Can (PLTC044G). With its large 44-gallon capacity, this trash receptacle will alleviate all the concerns that come along with proper waste disposal in a kitchen. Its size allows for your employees to spend less time taking out garbage and more time focusing on more important kitchen chores
